

## Instructions For Buying Gift Cards Online For TRiP Credit

Go to shopwithscrip.com and sign up with a user name and password. You can make it whatever you want.

Cornerstone's school code is : FAE817A78612

This will tell the website that this is your school and where to send the credit.

Sign up for PrestoPay which is very similar to PayPal. The process takes 2-4 business days. The way it works is you give PrestoPay your bank routing number and checking account number and they will put two small deposits into your account within 2-3 business days. You need to have online banking or call your bank to see when the deposits are made and the exact amount of the deposits. For example, let's say PrestoPay deposits \$.08 and \$.12 in your account. You then return to shopwithscrip.com and enter your user name and password again and the website will then remind you that you have not quite finished signing up for PrestoPay. Click on the reminder and it will ask you what were the exact amounts of the deposits they gave you. Put in those two deposits and then you will immediately get a 4 digit approval code. Text this approval code to Robyn White at 815-342-9839 (and tell me who you are so I know who's texting me!) and I will enter your approval code from my computer and you are officially signed up.

Now you can purchase "gift cards" on your computer from home and pay for them from home. The amount is automatically deducted from your checking account and there is a \$.15 convenience fee to do so. So next time you want to purchase restaurant cards or clothing cards but it's a Saturday afternoon, you can still get TRiP credit. **But you must remember to choose "ScripNow!" because you want the card NOW.** Also, you could ask relatives to sign up just like you did and they can give credit to your children at Cornerstone. That way, even if they live far away, they can still participate in helping your child in a painless way with their tuition. If you have a relative that gets Starbucks everyday, they can be contributing to your tuition here at CCA.

With Starbucks, you can put a Starbucks app on your smartphone and then add your shopwithscrip.com ecard to the app and then hand your phone to the cashier at Starbucks to pay for your coffee because a barcode will be showing on your phone. You can do a similar payment at Applebee's or Buffalo Wild Wings and pay with your phone after purchasing an ecard if you get email on your phone.

**Again, remember to choose ScripNow! when you shop so you get your card immediately.**
